Dharmapuri, Tamil Nadu.

Carrer Objective

Artificial Intelligence and Data Science undergraduate skilled in programming, data analysis, and emerging technologies. Focused on delivering efficient, data-driven solutions aligned with organizational goals.

Dedicated to continuous learning, adaptability, and driving business growth through innovation.

Education

B.Tech. - Artificial Intelligence and Data Science

VSB College of Engineering Technical Campus, Coimbatore

2023-2027

CGPA - 8.4

Sri Ram Matric Higher Secondary School, Dharmapuri

2022- 2023

HSC - 88.5%

Technical Skills

Programming Languages - Python | SQL

Technical Expertise - Data Analysis | Machine Learning | Generative AI | OOP | Data Visualization

Technologies - NumPy | Pandas | Matplotlib | Scikit-learn | TensorFlow | Stream lit

Database - MySQL

Tools & Platforms - Git | GitHub | VS Code

Professional Strengths - Problem Solving | Analytical Thinking | Adaptability | Communication | Teamwork

Internships

- **EXCERPT TECHNOLOGIES PVT.LTD. -AI/ML** June -2026
Implemented a Brain Tumour Detection project using Machine Learning and Python. Performed data analysis and visualisation using python libraries.
- **GROW YOUR SKILLS - WEB DEVELOPMENT** June - 2025
Worked on Web Development projects and gaining hands - on experience in the field.
- **EMGLITZ TECHNOLOGIES – ROBOTICS** Feb-Mar - 2024
Worked on Robotics projects and gaining hands-on experience in the field.

Projects

- **Brain Tumour Detection:**
Technologies: Python | NumPy | Pandas | Matplotlib | Machine Learning
Developed an ML model for brain tumour detection from MRI images, with data preprocessing and model evaluation.
- **Data Reliability Watchdog | Automated Data Quality & Validation Pipeline:**
Technologies: Python | Pandas | Py test | Stream lit
Engineered an automated data quality pipeline for Tamil Nadu Election Data, achieving **100% reliability across 3,995 records.**

Technical Experience & Activities

- Science-Tech Expo | IoT-Based Water Quality Monitoring System
Developed and demonstrated an IoT-based real-time water quality monitoring system as a team project
- NATIONAL LEVEL WORKSHOP - MATLAB for Engineers Nov -2023
Intelligent signal processing research cluster

Certifications

- Python (Kaggle)
- Machine Learning using Python (Infosys Springboard)
- Deep Learning (Infosys Springboard)
- Machine Learning for Data Science (IBM)
- Data Visualisation (TATA - Forage)
- Data Analytics Job Simulation (Deloitte)
- Java concepts (Infosys Springboard)
